Wisted California Blackjack, "22", or Wisted's California Aces may be played with certain modifications:

Standard 52 card decks may be used. 1 or more Jokers or "California Aces" may be added to the deck to increase the frequency of naturals or "22" point automatic winners. A hand of "22" is an automatic winner unless there are ties, those hands "push".

The game can be played using the following hand ranking options:

Option 1

22, 21, 20, 19, 18, 17, 16, 15, 14, 13, 12, 11, 10, etc. Hands containing 3 or more cards exceeding 21 points lose. A 2 card "22" is a natural. If the dealer/player has a natural the hand is over except for any pushes. Bonus wagers may be added at the house's discretion based on combinations of totals, busted hands, or matching hands. Hands may be dealt face up with the exception of the player/dealer's hole card. At the house's discretion, the player/dealer may hit or stand on "soft 17".

Option 2

22, 21, 23, 20, 24, 19, 25, 18, 26, etc. The dealer/player wins all pushes

Thank you for your interest in the game,
